

Galadriel before rebuild

Galadriel after rebuild

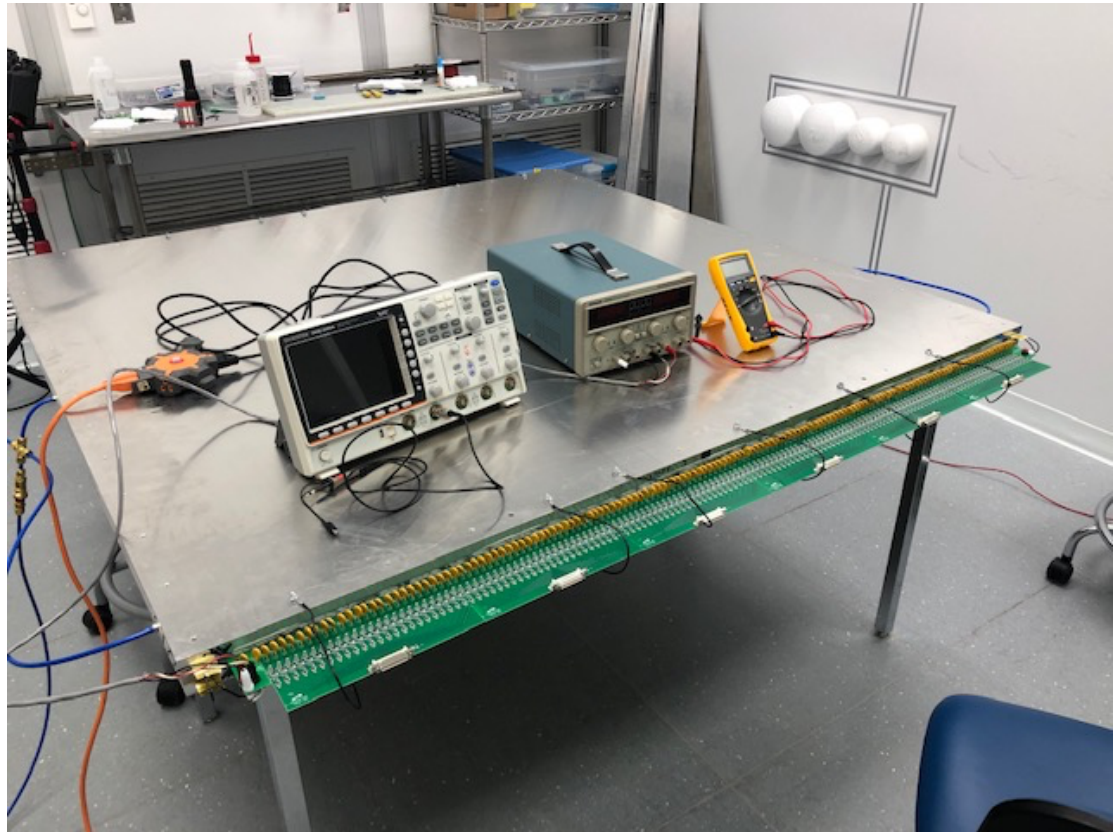

Galadriel is ready for transport to JLab

Arwen rebuilt

Arwen ready for testing

## Status of MWPCs

- 7 detectors have been completely strung.
- The central regions of 2 detectors have been rebuilt. One detector has been tested, the second will be tested today or tomorrow
- Rebuild the remaining 5 detectors.
- Complete the 8<sup>th</sup> detector.
- When the semester is over in late spring bring all the detectors that are ready for installation to JLab.
- Still need to make aluminum enclosures for the preamp electronics on the chambers
