

# Calibration Status

- Realigned detectors for neutral analyses
- BCAL calibrations almost done
  - Awaiting final checks on shower position
    - Clean rebuild of sim-recon needed
  - Will is rechecking gain calibrations
- Awaiting results of ongoing monitoring launch
  - Refine calibrations of FDC & low-yield TAGM channels
  - Finalize CDC time-to-distance calibrations
- Final monitoring launch after tape library downtime?
