

Discussion points

- Updates to TOF trigger test document, and plans for the trigger test in Jan.
- MWPC construction update
- Status of platform expansion design
- White paper for future Hall D running:
 - Submit white paper on measuring π^+ and π^0 electromagnetic polarizabilities
- Thoughts on run review for summer/fall 2019
- Thoughts on resubmitting CPP proposal for the 2020 jeopardy PAC
 - ask for additional running time for:
 - i. commissioning muon system
 - ii. data taking on $\gamma\gamma \rightarrow \pi^0\pi^0$
 - iii. running a second target
