

Total Cross Section - PARA 0° Beam

△ Spring 2017

○ Spring 2018

□ Fall 2018

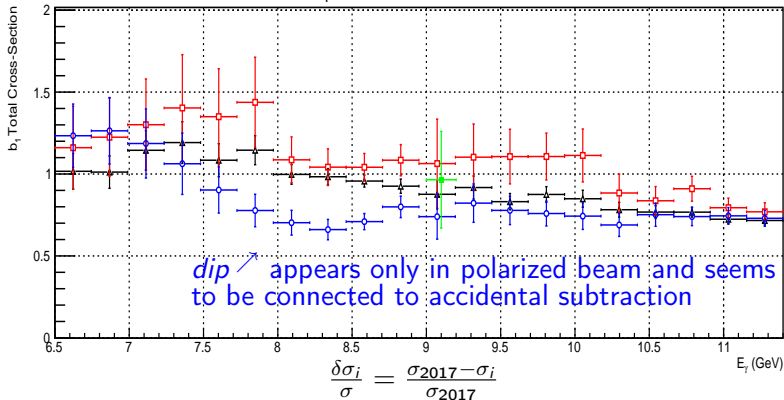

coherent peak seems lower than expected based on MC and tagged flux

Total Cross Section - PARA 0° Beam

\triangle Spring 2017 \circ Spring 2018 \square Fall 2018 \blacksquare Ballam et al.

b_1 Total Cross-Section

dip appears only in polarized beam and seems to be connected to accidental subtraction
