

Pull Request Tests

- Every time a pull request is created or updated in halld_recon or halld_sim, several tests are run
 - Does the branch build?
 - Does the software still run?

Pull Request Tests

- Tests using raw data
 - Run 30858, 1000 events, 8 threads
 - One plugin at a time: BCAL_Eff, BCAL_inv_mass, BCAL_online, CDC_drift, CDC_expert, CDC_online, DAQ_online, FCAL_online, FDC_online, PSC_online, PSPair_online, PS_online, RF_online, ST_online_lowlevel, ST_online_tracking, TAGH_online, TAGM_online, TOF_TDC_shift, TOF_online, TPOL_online, TRIG_online
 - Run all plugins at once
- Test using simulations
 - 500 pi+ gun events with HDGeant4
- Results kept for ~1 month
