

Calibration Status

- BCAL/FCAL per-run calibrations being finalized
 - Ready next week?
 - BCAL will need to redo high-level calibrations
- Nathan finalizing TAGH/PS calibrations
 - Ready by end of week?
- Sean: Need higher statistics to check TAGM/RF alignment for low-yield fibers.
- DC Alignment?

- Waiting on current high-statistics monitoring run to finish...
 - Silver lining: full dataset should be calibrated!

Pressure/temperature (purple) with scaled-for-display a_scale (pink) vs run number
